EDUCATION

Audencia Business School Nantes, France
Bachelor in Management (Sales, Economics, Finance, Data Analysis, Project Management, Marketing, International Trade)
Relevant coursework: Selling & Prospecting, Consumer & Digital Marketing, Marketing, Macroeconomics, Financial & Cost Accounting

WORK EXPERIENCE

MakiPeople Paris, France
Sales Ops & Enablement *Feb 2026 - Jul 2026*

- Became sole owner of Maki's enterprise demo pipeline, resolving the Sales Enablement team's core sales-cycle bottleneck by delivering 60+ AI hiring proof-of-concepts for Nike, EY France, Barclays, BCG and PwC across 10+ industries.
- Contributed to 6 enterprise RFP/RFI tenders (NatWest, Mastercard, Nike, Decathlon, Thales, Wayfair), built a client-facing EU AI Act compliance presentation, and created battlecards, one-pagers and a 17-step SOP now used team-wide.
- Earned full autonomy to work directly with Account Executives and senior stakeholders within 8 weeks, then led a Q2 GTM initiative automating demo prep (Salesforce, Storylane, Make.com) to cut build time to under 30 minutes and free ~1 FTE per week for deal execution.

Waste-Management Venture (self-initiated) Jaipur, India
Solo Founder · Built from zero *2025 - 2026*

- Designed a waste-collection business for housing societies around India's new Solid Waste Management Rules 2026: priced at ₹50 (~$0.50) per household a month, built the per-tonne economics, mapped 14 permits.
- Tested 3 business models (EPR credit aggregation, a ₹42L (~$44K) dry-waste plant, society wet-waste collection), pivoted twice on the numbers, and designed an 8-step facility blueprint in Figma.
- Stopped the venture when the fee (~₹1,700-2,300 per tonne) only matched municipal collection and processing costs, against the capital needed for plant, trucks and permits.

Bureau des Internationaux (BDI) Nantes, France
Events & Partnership Coordinator *Mar 2025 - Dec 2025*

- Ran events for 150+ participants end to end, from planning and venue coordination to on-site execution and post-event reporting.
- Built and managed relationships with venue and hospitality partners, negotiating terms and deliverables for each event.
- Coordinated with the BDI team on event day to keep set-up, timing and logistics on track, making sure all supplier deliveries were in place before guests arrived.

Alu-Cab Ulaanbaatar, Mongolia
Project & Client Relation (B2B, B2C) *Jun 2025 - Aug 2025*

- Ran 50+ B2B and B2C client accounts end to end, from enquiry and quote to fitting, payment and follow-up, through a Notion operating system and SOPs I built for bookings, repairs and payments.
- Conducted market analysis to position new product lines in the premium automotive segment.
- Streamlined order and delivery processes with the operations team, reducing client turnaround times.

Seeking Alpha U.S. (Remote)
Financial Analyst *Mar 2025 - Aug 2025*

- Authored a Super Micro Computer (SMCI) analysis that ranked #1 on Google, driving organic readership among retail and professional investors.
- Published 7+ equity research articles, building independent valuation models and assessing management strategy, ROIC and free cash flow.

KPMG Mongolia Ulaanbaatar, Mongolia
Audit Intern *Jan 2024 - Mar 2024*

- Audited multinational clients (Huawei, Japan Airport Management), preparing 150+ working papers.
- Verified $50M+ in client cash balances with five major Mongolian banks, completing reconciliations ahead of deadlines.
- Reviewed $250M in revenue during the consolidation of Tavan Bogd Group's statements (Toyota, KFC).
